

SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Identification of the substance/preparation ISO 32 Hydraulic Oil – 10557, 10559

Use of the substance/preparation Hydraulic Oil
Version No. 02
Revision date 01-January-2014
CAS No. Mixture

Supplier Plews & Edelmann
1550 Franklin Grove Road
Dixon, IL 61021
815-288-3344

Manufacturer Address Environmental Lubricants Manufacturing, Inc.
311 B Ave -Grundy Center, IA 50638

SDS Questions: (319) 824-5203

Emergency telephone: CHEMTREC: (800) 824-9300

2. HAZARDS IDENTIFICATION

This preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Physical hazards Not classified as a physical hazard.

Health hazards Not Classified as a health hazard.

Environmental hazards Not Toxic-Not classified as an environmental hazard.

Specific hazards May form vapors or oil mists during mechanical action or at elevated temperatures which may be irritating to the respiratory tract. Excessive inhalation of oil mist may affect respiratory system.
Dermatitis after prolonged exposure. Prolonged or repeated contact with skin may cause redness, itching, irritation, eczema/chapping and oil acne.

Main symptoms Irritant effects. Irritation of eyes and mucous membranes.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components		CAS-No.	%	EC-No. / REACH
Notes	Classification			Registration No.
Vegetable Oil	-	120962-03-0	60-100	273-315-5

Composition comments The full text for all R-phrases is displayed in Section 16. All concentrations are in percent by

weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. FIRST-AID MEASURES

Inhalation

Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact
minutes. In

Remove contaminated clothes and rinse skin thoroughly with water for at least 15

minutes. In case of rashes, wounds or other skin disorders: Seek medical attention and bring along these instructions.

Eye contact
contact lenses

Immediately flush eyes with plenty of water for at least 15 minutes. Remove any and open eyes wide apart. Get medical attention if irritation develops or persists.

Ingestion
Most important symptoms and

Drink 1 or 2 glasses of water. Get medical attention if any discomfort continues.

Effects

Symptoms include itching, burning, redness, and tearing of eyes.

General advice

Get medical attention if any discomfort develops.

Notes to physician

Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Dry chemical, foam, carbon dioxide.

Extinguishing media which must not be used for safety reasons

Do not use water jet as an extinguisher, as this will spread the fire.

Unusual fire & explosion Hazards

None known

Specific hazards
molecular weight

Thermal decomposition may produce smoke, oxides of carbon and lower organic compounds whose composition have not been characterised.

Special protective equipment for fire-fighters
case of fire.

Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.

Fire fighting equipment/instructions
cool unopened

Move containers from fire area if you can do it without risk. Use water spray to cool unopened containers. Cool containers with flooding quantities of water until well after fire is out.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions protection, see Section 8.	Ensure adequate ventilation. Remove sources of ignition. For personal In case of spills, beware of slippery floors and surfaces..
Environmental precautions spillage as indicated	Do not allow to enter drains, sewers or watercourses. Collect and dispose of in Section 13. Contact local authorities in case of spillage to drain/aquatic environment.
Methods for cleaning up this is possible.	Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Small Spills: Absorb spillage with oil-absorbing material. Large Spills: Absorb spilled substance with sand or earth.

7. HANDLING AND STORAGE

Handling contact with skin	Wear appropriate personal protective equipment. Avoid inhalation of oil mist and and eyes. Handle and open container with care. Use work methods which minimize production of vapors and mists. Observe good industrial hygiene practices.
Storage place. Store	Keep away from heat, sparks and open flame. Store in a cool and well-ventilated away from incompatible materials.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational exposure limits	No exposure limits noted for ingredient(s).
Exposure controls mist.	Provide adequate ventilation and minimize the risk of inhalation of vapors and oil mist.

Occupational exposure controls

Respiratory protection inadequate ventilation	No personal respiratory protective equipment normally required. In case of or risk of inhalation of oil mist, suitable respiratory equipment with combination filter (type A2/P2) can be used. Seek advice from local supervisor.
Hand protection recommended	Wear protective gloves. Nitrile gloves are recommended. Suitable gloves can be by the glove supplier.
Eye protection	If risk of splashing, wear safety goggles or face shield.
Skin and body protection	Wear suitable protective clothing. Frequent change of gloves is advisable.
General should be chosen	Use personal protective equipment as required. Personal protective equipment according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Environmental exposure

Controls emissions.	Contain spills and prevent releases and observe national regulations on
Hygiene measures hands after	Handle in accordance with good industrial hygiene and safety practices. Wash handling. Launder contaminated clothing before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Oily Liquid.
Physical state	Liquid.
Form	Liquid.
Colour	Amber.
Odour	Characteristic vegetable oil.
Odour threshold	Not available.
pH	Not available.
Boiling point	Not available.
Flash point	208 °C
Flammability	°C
Flammability limits in air, upper, % by volume	Not available.
Flammability limits in air, lower, % by volume	Not available.
Vapour pressure	< 0.5 mm Hg at 20 °C
Relative density	0.88
Solubility (water)	Practically insoluble
Partition coefficient (n-octanol/water)	Not available.
Viscosity	34 cst @ 40 °C
Vapour density	> 1 (Air = 1)
Evaporation rate	< 1 (n-Butylacetate = 1)
Melting point	Not available.
Freezing point	Not available.
Auto-ignition temperature	Not available.
VOC	0 %

10. STABILITY AND REACTIVITY

Stability	Stable at normal conditions.
------------------	------------------------------

Conditions to avoid High temperatures. Exposure to light. Contact with incompatible materials.

Materials to avoid Strong oxidising agents.

Hazardous decomposition Products At thermal decomposition temperatures, carbon monoxide and carbon dioxide.
Nitrogen oxides.

Hazardous polymerization Hazardous polymerization does not occur.

11. TOXICOLOGICAL INFORMATION

Acute toxicity May form vapours or oil mists during mechanical action or at elevated temperatures which may be irritating to respiratory tract. Excessive inhalation of oil mist may affect respiratory system.
Causes skin and eye irritation. Swallowing may cause gastrointestinal irritation.

Routes of exposure Eye contact. Inhalation. Skin contact.

Chronic toxicity and dermatitis Frequent or prolonged contact may defat and dry the skin, leading to discomfort

Sensitisation The product contains a small amount of sensitising substance which may provoke an allergic reaction among sensitive individuals.

Carcinogenicity IARC not listed.

Mutagenicity No test data available for the product.

Reproductivity No test data available for the product.

Epidemiology No epidemiological data is available for this product.

Local effects Irritating to eyes and skin. May cause redness and pain.

12. ECOLOGICAL INFORMATION

Ecotoxicity The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment

Mobility The product is immiscible with water and will spread on the water surface.

Persistence and degradability No data available.

Bioaccumulation No data available.

13. DISPOSAL CONSIDERATIONS

Disposal instructions Dispose in accordance with all applicable regulations.

Waste from residues / unused Products Dispose of in accordance with local regulations.

EU waste codes 13 08 99*

14. TRANSPORT INFORMATION

ADR Not regulated as dangerous goods.
IATA Not regulated as dangerous goods.
IMDG Not regulated as dangerous goods.

15. REGULATORY INFORMATION

Other regulations This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006 as amended.

16. OTHER INFORMATION

Wording of the R-phrases This preparation is not classified as dangerous according to Directive 1999/45/EC
in sections 2 and 3

Inventory status

Country(s) or region inventory (yes/no)*	Inventory name	On
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	Yes
Europe	European List of Notified Chemical Substances (ELINCS)	No

*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

Disclaimer The information given is based on data available for the material, the components of the material, and similar materials.

Issue date 10-June-2010
