## 2.HAZARDS IDENTIFICATION

This substance is classified as dangerous according to Directive 67/548/EEC.

**Classification** F+;R12

**Physical hazards** Extremely flammable.

**Health hazards** Not classified as a health hazard.

**Environmental hazards** Not Toxic-Not classified as an environmental hazard.

**Specific hazards** Breathing of high vapour concentrations may cause dizziness, light-headedness, headache, nausea and loss of co-ordination. Continued inhalation may result in unconsciousness. Contact with liquefied gas can cause damage (frostbite) due to rapid evaporative cooling. The product contains a small amount of sensitising substance which may provoke an allergic reaction among sensitive individuals. The product is extremely flammable. When sprayed on a naked flame or any incandescent material the aerosol containers can be ignited. Aerosol containers can burst violently when heated, due to excess pressure buildup.

**Main symptoms** Narcosis. Behavioural changes. Decrease in motor functions.

**4. FIRST-AID MEASURES**

**Inhalation**

Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact**

Remove contaminated clothing. Wash contact areas with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact**

Flush eyes thoroughly with water for at least 15 minutes. Remove any contact lenses and open eyes wide apart. Get medical attention if irritation develops or persists.

**Ingestion**

Not relevant due to the container type.

**Most important symptoms and Effects**

Symptoms include itching, burning, redness, and tearing of eyes.

**General advice**

Get medical attention if any discomfort develops.

**Notes to physician**

Treat symptomatically.

**5. FIRE-FIGHTING MEASURES**

**Suitable extinguishing media**

Dry chemical, foam, carbon dioxide.

**Extinguishing media which must not be used for safety reasons**

None.

**Unusual fire & explosion hazards**

Aerosol containers can explode when heated, due to excessive pressure build-up.

**Specific hazards**

During fire, gases hazardous to health may be formed.

**Special protective equipment for fire-fighters**

Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.

**Fire fighting equipment/instructions**

Move containers from fire area if you can do it without risk. Use water spray to cool unopened containers. Cool containers with flooding quantities of water until well after fire is out.

**6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions**

Ensure adequate ventilation. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). For personal protection, see Section 8. Avoid inhalation of vapours and aerosol spray. Avoid contact with skin and eyes.

**Environmental precautions**

Avoid discharge into drains, water courses or onto the ground. Collect and dispose of spillage as indicated in Section 13. Contact local authorities in case of spillage to drain/aquatic environment.

**Methods for cleaning up**

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Small Spills: Absorb spillage with non-combustible, absorbent material. Large Spills: Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Wash area with soap and water.

**7. HANDLING AND STORAGE**

**Handling**

Local exhaust is recommended. Do not inhale aerosols/spray mist. Avoid contact with skin and eyes. Wear appropriate personal protective equipment. The product is extremely flammable. May form explosive mixtures with air. Do not smoke and do not spray near a naked flame or other sources of ignition. Observe good industrial hygiene practices.

**Storage**

Keep away from heat, sparks and open flame. Keep in a cool, well-ventilated place. Store away

from incompatible materials.
